Hospital Engagement Network PfP Database

Option Year 1 measures are now fully launched. [Log into the PfP HEN Data Reporting Tool](#) to generate an on-demand report that shows current results. Reports are in the process of being upgrade to include a statewide comparative so that hospital results may be assessed. Watch for news soon on the update.

It is also time to report any self-reported measure. January – April 2014 data are due by July 25. It is very important that all available information be included so that aggregate reporting to CMS reflects all HEN activity. Contact your Improvement Advisor for any questions.
